

HotClays

Clay Shooting Scoring App

HOTCLAYS - CLAY SHOOTING SCORING APP - (iOS and Android)

I have been working with the creator of this App and this is well worth checking out.

HotClays - Trap, Skeet and Sporting Score sheets for clay shooting. Enables you to keep all your scores on your device or printed copies for filing.

Just tap "Hit" or "Miss" to score. Send score sheets as PDF files for viewing and printing. Automatically keep track of your score sheets right on your device. Backup and sync between devices for free.

If you coach a youth or high school team HotClays is designed with you in mind. Scores for each practice are grouped together on a single page, making it easy to upload weekly scores to your league. HotClays makes coaching easier with organised score sheets, statistics, and easy-to-use sharing features.

The following disciplines are supported:

TRAP

- American Trap ■ American Trap Doubles ■ Double Rise ■ Down-The-Line ■ Olympic Trap
- Olympic Double Trap ■ Single Barrel ■ ABT (Wobble Trap)

SKEET

- English Skeet ■ Olympic Skeet ■ Olympic Skeet Final ■ American Skeet ■ Skeet Doubles
- Skeet Shoot-Off ■ Wobble Skeet

SPORTING CLAYS

- English Sporting ■ Sportrap ■ Compak Sporting ■ FITASC Sporting ■ Super Sporting ■ Five Stand

HotClays can be used free of charge for viewing and sharing scores. To create new scores, a Premium account is required. Try HotClays Premium for free for 7 days, then \$6.99 per month or \$49.99 per year.

OTHER FEATURES

- Landscape scoring: Rotate your device sideways for an alternative scoring experience. Especially useful for devices with smaller screens.
- Offline: No cell or internet connection needed to score rounds. Syncing resumes when you return to an internet connection.
- Free backup and sync: Sign in with your email to have scores backed up to the cloud. Use the same email on all your devices and scores will be synced automatically.
- Person-by-person statistics: Statistics for each person are automatically computed from score sheets. More statistics coming with each update.
- Reliable scoring: Scores are auto-saved frequently to minimize the risk of losing your place in a round while scoring.
- Directional scoring (trap only): Keep track of target directions for more detailed statistics. Directions are hard left, soft left, centre, soft right, and hard right. Hold down the hit or miss button to reveal the directional miss menu.
